

## TABLE OF CONTENTS

<b>PREFACE</b> .....	v
<b>CRUDE OIL AND HYDROCARBON FLUID</b>	
<b>Evaluation and Prediction of the Thermal and Hydraulic Impact of Crude Oil Fouling on Exchanger Performance Using Pressure Measurements</b> .....	1
K.S. Chunangad, R.Y. Chang and R.P. Casebolt	
<b>Quantifying Implications of Deposit Aging from Crude Refinery Preheat Train Data</b> .....	5
E.M. Ishiyama, E.S. Falkeman, D.I. Wilson and S.J. Pugh	
<b>Translating Crude Oil Fouling Testing Rig Data to the Field: A Road Map for Future Research</b> .....	14
A.D. Smith, E.M. Ishiyama, J.S. Harris, and M.R. Lane	
<b>INDUSTRIAL FOULING PROBLEMS</b>	
<b>Effects of Temperature Conditions and Heat Treatment within a Multiple Effect Evaporator on Thin Stillage Fouling Characteristics</b> .....	25
B.Y. Zhang, D.B. Johnston, N.J. Engeseth, B.S. Dien, V. Singh, M.E. Tumbleson and K.D. Rausch	
<b>Fouling in a Steam Cracker Convection Section Part 1: A Hybrid CFD-1D Model to Obtain Accurate Tube Wall Temperature Profiles</b> .....	33
P. Verhees, A.R. Akhras, K.M. Van Geem and G.J. Heynderickx	
<b>FOULING IN POWER PLANTS</b>	
<b>Calcium Phosphate Scale Formation in Power Station Condensers Fed by Cooling Towers: A Case of When not to Use Scaling Indices</b> .....	41
D. Hawthorn and D.I. Wilson	
<b>CRYSTALLIZATION FOULING</b>	
<b>A Novel Fouling Cell to Study Influence of Solution on Crystallisation Fouling</b> .....	49
P. Besevic, S.M. Clarke, G. Kawaley and D.I. Wilson	
<b>Effect of Silica on Deposition and Ageing of Calcium Carbonate Fouling Layers</b> .....	58
P. Besevic, S.M. Clarke, G. Kawaley and D.I. Wilson	
<b>Impact of Crystallization Fouling on the Moisture Transfer Resistance of a Liquid-To-Air Membrane Energy Exchanger</b> .....	67
A.O. Olufade and C.J. Simonson	
<b>Measuring Local Crystallization Fouling in a Double-Pipe Heat Exchanger</b> .....	75
F. Schlüter, L. Schnöing, H. Zettler, W. Augustin and S. Scholl	

**BIOFOULING**

- A New and Novel Abiotic-Biotic Fouling Sensor for Aqueous Systems...** 83  
P. Bierganns, E.S. Beardwood
- Interaction of E. Coli and Autochthonous River Water Microorganisms with Polymers in Heat Transfer Applications.....** 92  
S. Pohl, M. Madzgalla, W. Manz and H.-J. Bart
- Understanding Protein Fouling by Resorting to Meso-Scale Modeling....** 100  
R. Qiu, J. Xiao and X.D. Chen

**FOULING DURING FOOD PROCESSING**

- Continuous Monitoring of Whey Protein Fouling Using a Non-Intrusive Sensor.....** 108  
L. Bouvier, G. Delaplace and S. Lalot

**FOULING MITIGATION AND DESIGN**

- Fouling Mitigation Using Estimated Fouling Layer Thickness in Finned Tube Heat Exchanger.....** 115  
T. Kuwahara
- Industrial Perspective on Fouling Research - Fouling Mitigation through Modifications of Heat Transfer Surfaces.....** 119  
L. Jackowski, T.Y. Lam, E. Rogel, C. A. Bennett, K. Hench, S. Taylor, and T. Swangphol
- Shell-and-Tube Heat Exchanger Geometry Modification: An Efficient Way To Mitigate Fouling.....** 127  
A. Chambon, Z. Anxionnaz-Minvielle, G. Cwicklinski, N. Guintrand, A. Buffet and B. Vinet
- The Impact of Fouling on the Optimal Design of a Heat Exchanger Network: An Industrial Case Study.....** 133  
E. Diaz-Bejarano, M. Yugo Santos, Manolo García Dopico, L. Lanchas-Fuentes and F. Coletti

**EFFECT OF SURFACE PROPERTIES**

- A Fouling Micro-System for Investigating Fluoropolymer Anti-Fouling Coatings In Bovine Milk Pasteurization.....** 140  
O.M. Magens, J. Hofmans and D.I. Wilson
- A Holistic Approach to Heat Exchanger Plate Surface Design.....** 148  
J. Lebga-Nebane and S. Chizen
- Crystallization Fouling on Modified Heat Exchanger Surfaces.....** 155  
M. Riihimäki, T.M. Pääkkönen, J. Guillot, E. Lecoq, E. Muurinen, C.J. Simonson and R.L. Keiski
- Development of Thin Sol-Gel Coatings for Heat Exchanger Fouling Mitigation at Elevated Temperatures.....** 163  
C. Bischoff, R. Losada, T. Poulsen, L. Jackowski and S. Taylor
- Experimental Analysis of Soot Particle Fouling on EGR Heat Exchangers: Effect of Velocity on the Deposited Particle Size Distribution.....** 167  
C. Paz, E. Suárez, M. Concheiro, and J. Vence
- Fouling-Release Coatings for Steam Condensers in Thermal Power Plants.....** 177  
S. Holberg and R. Losada

**EFFECT OF SURFACE PROPERTIES (Continued)**

<b>Inhibition of Fouling with Titania and Silica Coatings on Plate Heat Exchanger in 80°C Simulated Geothermal Water.....</b>	<b>183</b>
F. Zhang, M.Y. Liu, and W.D. Zhou	
<b>Progress Update Bioinspired Anti-Adhesive Surfaces.....</b>	<b>191</b>
S. Mulansky, M. Saballus and E. Boschke	
<b>Suitability of Thin Ceramic Coatings Towards Scale Reduction in Heat Exchangers.....</b>	<b>198</b>
O. Santos, M. Nilsson, A.H. Jensen and A.B. Christiansen	
<b>Thermo-Hydraulic Analysis of Structured Heat Transfer Surfaces Under Consideration of Particulate Fouling Using A Multiphase Eulerian-Lagrangian Method.....</b>	<b>206</b>
R. Kasper, J. Turnow and N. Kornev	

**CLEANING OF HEAT EXCHANGERS**

<b>Crude Oil Fouling Mitigation Using Internally Finned Tubes.....</b>	<b>215</b>
H.M. Joshi, T. Lang, J. El Hajal, and A.D. Smith	
<b>Energy savings from the Automatic Tube Cleaning System (ATCS).....</b>	<b>221</b>
D.P. Ross, P.A. Cirtog, Z. Cuckovic, G. Bridges, M. Crocker and C. Dir	
<b>Fluid Dynamic Gauging for Pulsed Flow Cleaning.....</b>	<b>228</b>
N. Gottschalk, S. Foisel, F. Schlüter, W. Augustin and S. Scholl	
<b>Improved Methods for Removal of Silicate Deposits.....</b>	<b>235</b>
T.R. McCartney, S. Gharaibeh, and R. Shank	
<b>Mechanical Online System for Cleaning Heat Exchanger Tubes by Sponge Rubber Balls (TAPROGGE-System).....</b>	<b>240</b>
R. Kleinebrahm	
<b>Prediction of Cleaning by Means of Computational Fluid Dynamics: Implication of the Pre-Wetting of a Swellable Soil.....</b>	<b>248</b>
M. Joppa, H. Köhler, F. Rüdiger, J.-P. Majschak and J. Fröhlich	
<b>The Custom Design and Fabrication of a Condenser Automatic Tube Cleaning System for Dominion Power.....</b>	<b>256</b>
D.P. Ross, P.A. Cirtog, M. Crocker and C. Dirks	

**PARTICULATE FOULING**

<b>Design of a Cooled Fouling Probe to Investigate Scaling Mechanisms from the Aluminum Production Off-Gas.....</b>	<b>261</b>
D.P. Clos, H. Gaertner, P. Nekså, S.G. Johnsen, R.E. Aune	

**HEAT EXCHANGER FOULING MONITORING**

<b>Effect of Flow Distribution in Parallel Heat Exchanger Networks: Use of Thermo-Hydraulic Channeling Model in Refinery Operation.....</b>	<b>265</b>
E.M. Ishiyama and S.J. Pugh	

**FOULING OF COMPACT AND MICRO HEAT EXCHANGERS**

<b>Development of a CFD Model for Predicting Fouling Process Using Dynamic Mesh Model.....</b>	<b>273</b>
C. Paz, E. Suarez, M. Conde, and J. Vence	
<b>The Role of Binary Mixtures of Particles on Air-Side Fouling of Compact Heat Exchangers.....</b>	<b>281</b>
R. Haghghi-Khoshkhoo and F.M.J. McCluskey	

**FLUIDIZED BED**

<b>Concentration of Extraction Liquids of Traditional Chinese Medicines in an Industrial Scale Fluidized Bed Evaporator.....</b>	<b>288</b>
M.Y. Liu, N.S. Ling, J. Zheng, Y.G. Fan, H.H. Zhang, Z.X. Li, Y. Ma, D.L. Li, X.P. Xu, Y. Wang, X.L. Li	
<b>Fluidized Bed Heat Exchangers for the Evaporation of Waste Waters: Design Advantages and Operational Experiences.....</b>	<b>293</b>
M. Cancela Vallespin, P. Kedia and M.C. van Beek	
<b>Horizontal Shell Side Fluidized Bed Heat Exchanger, Design Considerations and Experiences from a Pilot Unit.....</b>	<b>299</b>
M.C. van Beek, M. Cancela Vallespin
