

TABLE OF CONTENTS

PREFACE	v
INTRODUCTION	
HELIXCHANGER® Heat Exchanger - Field Experience and Ongoing Development	1
R.J. Jibb, M. Brignone, S. Taha, G. Podrebarac, J. Larance, P. Junge	
Fluid Dynamic Gauging for Studying Early Stages of Swelling of Fouling Deposits	12
J.-H. Tsai, G.L. Cuckston, L. Schnöing, W. Augustin, S. Scholl, B. Hallmark and D.I. Wilson	
Modelling Local Fouling Resistances	20
F. Schlüter, W. Augustin and S. Scholl	
CRUDE OIL AND HYDROCARBON FLUID FOULING	
Characterization of Crude Oil Fouling: Defining the Coke Spectrum	30
R.A. Shank and T.R. McCartney	
Comparison of Heat Exchanger Fouling Test Results for Once-Through and Recirculating Modes of Operation	39
Francesca Cibotti, Estrella Rogel, Kyle Hench, Les Jackowski	
MICRO AND COMPACT HEAT EXCHANGER FOULING	
Experimental Study of the Effect of Hydrocarbon Condensation on the Fouling Deposits of Exhaust Gas Recirculation Coolers	45
Paz C., Concheiro M., Vence J. and Cabarcos A.	
CFD Simulation of Fouling of Plate Heat Exchanger with SMUF	53
U.Ojaniemi, T.P. Pättikangas, A. Jäsberg, E. Puhakka and A. Koponen	
ANTI-FOULING DESIGN AND OPERATION OF HEAT EXCHANGER NETWORKS	
On-line Fouling Mitigation for Preheat Trains Using Ultrasonic Scale Prevention	61
R. G. Phillion	
Practical Experiences with Fluidized Bed Heat Exchanger for Evaporation of Waste Water	67
M. C. van Beek, A. S. Awalgaonkar	
FOULING IN POWER PLANTS	
Enhancing the Effectiveness of Hydrogenerator Heat Exchangers through the Control of Measurement Uncertainties	73
M.N. Frota, J.D. Hernández-Vásquez, E.R. Castro-Pacheco and S.B. Germano	
Modeling and CFD Simulation of the Displacement of the Solid/Liquid Interface during Crystallization Fouling in a Geothermal Heat Exchanger	84
F. Cazenave, J.P. Serin, P. Bernada and F. Couture	
The Dynamic Behaviour of Once-Through Cooling Water Systems under Fouling Phenomena	91

J.N.M. Souza, A.R.C. Souza, A.L.H. Costa and L. Melo

POSTERS

Interfacial Surface Energies – Stainless Steel and Titanium Nitride Substrates and CaCO₃ and CaHPO₄ Depositions.....	101
E. Puhakka, U. Ojaniemi and T. Pättikangas	
Discussion of Using Fouling Rig Analysis to Model Industrial Fouling Data.....	109
E.M. Ishiyama, S.J. Pugh and H.M. Joshi	

SURFACE MODIFICATIONS

Development of TiO₂-PTFE Nanocomposite Coatings with Antibacterial and Anti-Corrosion Properties on Stainless Steel Surface.....	117
S. Zhang, R. Keatch and Q. Zhao	
High Performance Coatings for Protecting Carbon Steel and Low Alloying Stainless Steel in Low Enthalpy Geothermal Fluids.....	121
R. Losada, S. Holberg, L. Freire and J. Van Bael	
Qualifying a Fouling Repellent Thin Sol-Gel Coating for Carbon Steel Shell & Tube Heat Exchangers.....	126
T. Poulsen, R. Losada, C. Bischoff, E. Curran, L. Jackowski, S. Taylor and B. Chaloner-Gill	
Effective Corrosion Protection and Scaling Prevention of Complex Geometries.....	130
Florian Steinmann, Till Merkel	
Analysis of Crystallization Fouling Durability of Novel Heating Elements for Electric Water Heating.....	136
A. Janzen and E. Y. Kenig	
Prevention of Carbon Deposition on the Surface of Stainless Steel Tubes through Ceramic Coating.....	144
T. Cordero-Lanzac, A. Arandia, A.G. Gayubo, A.T. Aguayo, M. Presa and S. Lodha	
Alfa Laval Experience with Coatings to Reduce Fouling in Plate Heat Exchangers.....	150
O. Santos, C. Wictor and M. Nilsson	
Development of a Quantification Method for Fouling Deposits Using Phosphorescence.....	158
H. Deponte, W. Augustin and S. Scholl	

MECHANISMS OF HEAT TRANSFER FOULING

Understanding and Analysis of Fouling Behavior of Bare-Wire Heating Elements in Electric Water Heating.....	166
A. Janzen and E.Y. Kenig	
Crystallization Fouling in Domestic Appliances and Systems.....	174
Amthal Al-Gailani, Thibaut Charpentier, Olujide Sanni and Anne Neville	
Effects of Film Flow on Scale Formation in Horizontal Tube Falling Film Evaporators for Seawater Desalination.....	182
M. Waack, H. Glade and S. Nied	
Effect of Different Operating Conditions on the Sensitivity of Noninvasive Methods to Detect Crystallization Fouling in Liquid-to-Air Membrane Energy Exchangers.....	191
B. Xing, A.O. Olufade and C.J. Simonson	
Experimental Characterization of Fouling in Context of Heat Exchanger Development.....	197

A. Warlo, B. Nienborg, H. Fugmann, M. Altenberend, L. Schnabel, K. Conzelmann, M. Mathieu and A. Schwärzler	
Investigation of Crystallization Fouling on Novel Polymer Composite Heat Exchanger Tubes.....	204
H. Glade, S. Schilling and T. Orth	
Investigation of the Fouling Behaviour of a Polymer During Synthesis....	213
A. Hohlen, W. Augustin and S. Scholl	
MONITORING OF HEAT EXCHANGER FOULING	
Integration of Optimal Cleaning Scheduling and Control for Fouling Mitigation in Heat Exchanger Networks: A Receding Horizon Approach..	221
F. Lozano-Santamaria and S. Macchietto	
Developments in Optimal Scheduling of Cleaning Actions for Heat Exchanger Networks Subject to Fouling.....	229
R. Al Ismaili, M.W. Lee, V.S. Vassiliadis and D.I. Wilson	
Advanced Fouling Management through Use of HTRI SmartPM: Case Studies from TOTAL Refinery CDU Preheat Trains.....	237
E.M. Ishiyama, C. Juhel, B. Aquino, H. Hagi, S.J. Pugh and H.U. Zettler	
Model Validation for the Optimization of Refinery Preheat Trains under Fouling.....	248
F. Lozano-Santamaria and S. Macchietto	
Heat Exchanger Monitoring to Improve Integrity, Reliability, and Operations in the Oil and Gas Industry.....	257
Ian Luna, Christopher A. Bennett, Lanre Badmus, Seth Taylor, Doug Swenson and Les Jackowski	
MODELING AND CFD STUDIES OF FOULING PROCESSES	
CFD Study of the Fouling Layer Evolution Due to Soot Deposition and Hydrocarbon Condensation inside an Exhaust Gas Recirculation Cooler	262
Paz C., Suárez E., Vence J. and Gil C.	
Numerical Investigation of Various Geometries of Steam Cracking Furnace Tubes for Reduced Fouling Rate.....	271
B. Indurain, F. Beaubert, D. Uystepruyt, S. Lalot and M. Couvrat	
Validation of a Temperature Dependent 3D Numerical Droplet Impingement Simulation Procedure to Predict Splash/Non-Splash Behavior.....	280
S. Vangaever, P. Verhees, A.R. Akhras, K. M. Van Geem and G. J. Heynderickx	
CLEANING OF HEAT EXCHANGERS	
A Combined Experimental-Modelling Approach to Optimise Chemical Cleaning of Heat Exchangers.....	289
E. Diaz-Bejarano, H. Borgt and F. Coletti	
On the Concept of CFD-Based Prediction of Cleaning for Film-Like Soils.....	297
H. Köhler, V. Liebmann, M. Joppa, J. Fröhlich, J.-P. Majschak and F. Rüdiger	
Taking Safety to the Max: Eliminating Hydroblasting Risk through Innovative Design, Automation and Process.....	305
B. Kieser and D. Stang	
Thermal Cleaning of Heat Exchangers, No Alternative but a Better Way to Clean.....	309
R.A. Mol	

Gains from the Use of Ultrasonic Cleaning of Large Industrial Equipment.....	316
C. Henrique Schulz and B. Kieser	
New Peroxide-Based Technology of Heat Exchangers Cleaning.....	323
I. F. Gazizullin, D. R. Bazanov, V. I. Semenikhin and I. Y. Rodin	
Shell Jet™ - Cleaning the Inaccessible and Uncleanable.....	327
Mike Watson	
Online Cleaning: A Tool for Improving Operational Excellence.....	334
Dr. M. Ferrara	
Modelling Fouling in Hydrodesulfurization Unit Heat Exchangers.....	342
E.M. Ishiyama, J. Kennedy and S.J. Pugh	
FOULING IN DAIRY AND FOOD INDUSTRIES	
Effect of Physicochemical Properties of Native Starches on Cleaning in Falling Film and Plane Channel Flow Experiments	351
S. Kricke, K. Böttcher, S. Zahn, J.-P. Majschak and H. Rohm	
Fouling and Cleaning of Plate Heat Exchangers: Dairy Application.....	360
A. Sharma and S. Macchietto	
Fouling Dynamics of SMUF on a Plate Heat Exchanger.....	361
A. Jäsberg, T. Turpeinen, A. Tanaka, A. Ketola, M. Järvinen, U. Ojaniemi, T. Pättikangas and A. Koponen	
Thermal Ageing of Mineral and Proteinaceous Fouling Layers during the Growth Phase.....	368
L. Schnöing, W. Augustin and S. Scholl
